ISO 9001

Cable Harnesses – Battery Leads – Earth Braids – Panel Assemblies

Making the right connection...

Cable Harnesses

Military specification and fully sealed. Commercial, industrial, telecommunications and bespoke to customer requirements. Applications for military, construction, agriculture and specialist vehicles.

Battery Leads and Earth Braids

Currently processing up to 150mm², single and multi-cable assemblies available.

Lighting Assemblies

RTA and site lights, trailer and marker board assemblies, sealed LED units.

Panel Assemblies

Control assemblies, fascia plates, and distribution assemblies.

Kitting

Pre-assembled kit of components/assemblies delivered to line side if required.

Refurbishment and Remanufacture

Harnesses and battery leads updated as required to new specification.

Quality

Hipot, continuity and shorts test capability. Full traceability, ISO9001:2008 and Link-up accreditation.
